WATERBURY

Remarkable Attendance Record in Lo cal Schools.

Unusual interest in school has been shown by the pupils of the Waterbury high and graded schools for the three months recently closed, as shown by the record of attendance which Supt Willis herewith publishes. He attrib-utes this remarkable attendance to the interest of the school and class room work which has been stimulated by painstaking efforts on the part of the

painstaking efforts on the part of the teachers and a splendid response on the part of the students.

A large attendance banner is awarded each month by Principal Gorham to the room having the largest percentage of attendance for that month, which has undoubtedly given an added im-petus to the effort. Superintendent Willis awards a similar banner each term to the rural school in Washington west district having the highest per cent of attendance, which has aided in securing a much better attendance in the rural schools.
